PRODUCT

Duracid Microgranuli is a sugar granular bait insecticide against ants.
[Registration of Italian Ministry of Health No.19847](#)

COMPOSITION

Cypermethrin (CAS n°: 52315-07-8)	0,6%
Denatonium Benzoate	0,001%
Coformulants	q.s. to 100%

ACTIVITY & CHARACTERISTICS

Duracid Microgranuli is an insecticide bait designed specifically to control ants. It is suitable for both indoor and outdoor use. **Micro-encapsulated cypermethrin-based bait.**

The micro-encapsulation of the active ingredient successfully increases the product efficacy: after having ingested the bait, the ant does not die immediately and has time to return to the colony. The sharing of the bait among the various members of the colony helps disseminate the insecticide, giving rise to a chain effect that will destroy the nest entirely.

METHODS AND DOSAGES FOR USE

Duracid Microgranuli should be used as-is, spreading the product above or near the nest or on surfaces where ants are a regular presence, at a dose of 15-20 g/m².

Duracid Microgranuli is recommended for indoor and outdoor treatments in rural, zoo-technical (milking halls, stalls, animal shelters, farms and manure heaps), civil (schools, hospitals, cinemas, shops, barracks, hotels, restaurants and canteens) and industrial (such as food industries) environments.

WARNINGS

Do not contaminate food, drink or their containers during use. Do not spray into the air. Wear suitable gloves. Avoid contact with skin, eyes and clothing. After handling, if contaminated wash thoroughly with soap and water. Keep animals away prior to treatment.

INFORMATION FOR THE DOCTOR - ANTIDOTE

Note to physicians: Pharmacodynamic action of the active ingredients: blocks nervous transmission.

Warnings: consult a poison control center.

HAZARD STATEMENTS

H410 Very toxic to aquatic life with long lasting effects.

PRECAUTIONARY STATEMENTS

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P103 Read label before use.

P273 Avoid release to the environment.

P391 Collect spillage.

P501 Dispose of contents in accordance with local regulation.
