Pyrethroid insecticide in powder form against ants, cockroaches, fleas, flies and crawling insects.

Registration of Italian Ministry of Health No.19635

### **COMPOSITION**

Cypermethrin (CAS n°: 52315-07-8)	0,6%
Denatonium Benzoate	0,001%
Coformulants	q.s. to 100%

### **ACTIVITY & CHARACTERISTICS**

**Duracid Polvere** is an insecticide in powder form effective against ants, beetles, cockroaches, bugs, gnats, ticks, bird lice, fleas, dust mites, red mites, silverfish, woodlice and flies. The product is characterised by high knock-down power and a residual effect that protects environments from new infestations.

**Duracid Polvere** is recommended for both indoor and outdoor use to treat homes (kitchens, cellars, windowsills, walkways, etc.) and gardens, perimeter areas of buildings, from ant nests visible on lawns or under vegetation, areas adjacent to the home or civil environments to create a protective barrier. It can also be used:

- In communities: rest homes, hospitals, canteens, schools, barracks, campsites, warehouses, restaurants, etc.
- In animal shelters: kennels, stalls, runs, yards, sties, etc.
- In waste deposits, landfills, etc.
- On transport means such as railway carriages and buses.

### **METHODS AND DOSAGES FOR USE**

**Duracid Polvere** is used as-is, distributing the product directly over the surfaces to be treated at a dose of 15 - 20 g/m<sup>2</sup>. Use the specific dispenser to blow the powder into holes or fissures where the presents of pests is suspected such as bugs, ants or other. The product can also be used near electrical sockets or areas near electrical systems where water would be dangerous. To increase the efficiency in treating ant nests, after having spread the powder over the nest, water to cause the powder to flow into the nest.

**WARNINGS**

Do not contaminate food, drink or their containers during use. Do not spray into the air. Wear suitable gloves. Avoid contact with skin, eyes and clothing. After handling, if contaminated wash thoroughly with soap and water. Keep animals away prior to treatment.

**INFORMATION FOR THE DOCTOR - ANTIDOTE**
